INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholder
IBN Financial Services, Inc.
Liverpool, New York

We have audited the accompanying statement of financial condition of IBN Financial Services, Inc. (the Company) as of December 31, 2008. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the accompanying statement of financial condition presents fairly, in all material respects, the financial position of IBN Financial Services, Inc. as of December 31, 2008, in conformity with U.S. generally accepted accounting principles.

Note 1. Summary of Significant Accounting Policies

Nature of Operations

IBN Financial Services, Inc. (the Company) is a regional securities broker-dealer registered with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA) as an introducing broker. The Company's customer transactions are cleared on a fully disclosed basis with a correspondent clearing broker. The Company is engaged principally in the trading and brokerage of investment company shares (mutual funds), equity securities, bonds and other investment products.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash - Concentration of Credit Risk

The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all money market accounts to be cash equivalents.

Marketable Securities

Marketable securities in the Company's investment account are classified as available for sale and are valued under "mark to market" pricing in accordance with FASB Statement No. 157 for financial statement purposes. All securities valuations are from quoted market prices (unadjusted) and are considered Level 1 inputs in the fair value hierarchy established by FASB Statement No. 157. For tax purposes, any unrealized gain or loss recognized on the investment account is removed from the calculation of taxable income.

Note 1. Summary of Significant Accounting Policies (continued)

Property, Equipment and Depreciation

Property and equipment are recorded at cost. Renewals and betterments of property are accounted for as additions to asset accounts. Repairs and maintenance charges are expensed as incurred. Depreciation is computed using accelerated methods for financial reporting and income tax purposes. Estimated useful lives vary from 5 to 7 years for office equipment.

Securities Transactions

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers' securities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Commissions

Commission and related clearing expenses are recorded on a trade date basis as securities transactions occur.

Income Taxes

The Company has elected to be treated as a Subchapter "S" Corporation under the Internal Revenue Code and the New York State Corporation Tax Law. Under these elections, the income generally is taxed directly to the stockholders. New York State has a minimum tax on corporations, which resulted in a corporate level tax of \$1,500 and is reflected in these financial statements.

Note 2. Receivables from Clearing Organization and Funds

The Company is engaged in various trading and brokerage activities whose counterparties include a fully disclosed carrying broker and other financial institutions. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. The Company has not experienced any credit risk related to loss and there has been no bad debt related expense from these transactions during the reporting period. It is the Company's policy to review, as necessary, the credit standing of each counterparty. The Company uses the direct write-off method in recognizing bad debt. Specifically, the rule prohibits a broker-dealer from permitting its "aggregate indebtedness" from exceeding fifteen times its "net capital" as those terms are defined and the rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1.
